

**Kavitha Dalal, PharmD**  
Program Director

The Virtua pharmacy residency program is designed to give the resident a well-rounded learning experience with exposure to a variety of clinical areas. Virtua Health has a dedicated group of preceptors who will provide the resident with an optimal learning environment. Our residents gain knowledge not only in a variety of clinical learning experiences, but gain an understanding in the areas of research, teaching, and pharmacy leadership. Our goal is to provide outstanding training experiences to all our residents to foster and promote their professional goals while broadening their clinical knowledge base.

On behalf of the entire pharmacy department and preceptors, I thank you for your interest in the Virtua Health PGY 1 pharmacy residency program. Please explore our residency webpage as well as other information about Virtua Health, available on this website. We welcome your questions.

Wishing you the best in your residency search,

**Kavitha Dalal, PharmD**
